

Package: certedata (via r-universe)

October 15, 2024

Title A Certe R Package for Loading 'certedata' Universe

Version 4.4.2

Description A Certe R Package for loading all R packages in the 'certedata' universe, based on the 'tidyverse/tidyverse' repo. This package is part of the 'certedata' universe.

URL <https://certe-medical-epidemiology.github.io/certedata>,
<https://github.com/certe-medical-epidemiology/certedata>

Depends R (>= 4.1.0)

Imports cli (>= 3.6.0), crayon (>= 1.4.0), purrr (>= 0.3.0),
rstudioapi (>= 0.10)

Suggests AMR, broom, certedb, certegis, certemail, certepplot2,
certeprojects, certestats, certestyle, certetoolbox, cleaner,
dplyr, extrafont, flextable, forcats, ggplot2, glue, lubridate,
readr, readxl, skimr, stringr, testthat (>= 2.0.0), tibble,
tidyr

License GPL-2

Encoding UTF-8

Roxygen list(markdown = TRUE)

RoxygenNote 7.2.3

Index**5**

certedata_attach	<i>Attach 'certedata' Universe Packages</i>
------------------	---

Description

Attach 'certedata' Universe Packages

Usage

```
certedata_attach(...)
```

Arguments

... unused at the moment

Details

This function attaches all 'certedata' universe R packages and their accompanying third-party packages (in total 25 packages).

To install the packages, see [certedata_install_packages\(\)](#).

certedata_conflicts	<i>Conflicts between the 'certedata' universe and other packages</i>
---------------------	--

Description

This function lists all the conflicts between packages in the 'certedata' universe and other packages that you have loaded.

Usage

```
certedata_conflicts()
```

Examples

```
certedata_conflicts()
```

`certedata_install_packages`*Install all packages required for the 'certedata' universe*

Description

This function not only installs the 'certedata' universe, but also its accompanying third-party packages.

Usage

```
certedata_install_packages()
```

Details

These 25 packages will be installed if not already:

- AMR
- broom
- certedb
- certegis
- certemail
- certepplot2
- certeprojects
- certestats
- certestyle
- certetoolbox
- cleaner
- dplyr
- extrafont
- flextable
- forcats
- ggplot2
- glue
- lubridate
- purrr
- readr
- readxl
- skimr
- stringr
- tibble
- tidyr

certedata_packages *List all packages in the 'certedata' universe*

Description

List all packages in the 'certedata' universe

Usage

```
certedata_packages(only_installed = TRUE, include_self = TRUE)
```

Arguments

`only_installed` a **logical** to indicate whether only currently installed packages should be returned

`include_self` a **logical** to indicate whether the 'certedata' package should be included as well

Examples

```
certedata_packages()
```
